

Open Systems Specialists: System Administrators

OSS are seeking experienced Systems Administrators to join our team of highly skilled infrastructure consultants in either Auckland or Wellington.

You will be required to work closely with our clients and other regional administrators to deliver system and application stability, security, performance, as well as documentation for our Managed Services clients.

You must be prepared to work in an extremely collaborative and dynamic environment, whilst maintaining a high level of professionalism, excellent communication skills and the ability to prioritise tasks and work independently, yet interact well within a service management team environment.

When dealing with OSS clients, you will need to be a good listener, be easy to do business with, keep commitments, and do it right 'first time'.

Desired Skills and Experience

- Minimum 4-7 years of experience with expertise including installation, administration, configuration, troubleshooting, preventative maintenance, monitoring, and security procedures
- Network, hardware and software configuration and troubleshooting
- Looking for knowledge of Linux / AWS / VMware / SharePoint / Microsoft / TSM Server / Commvault / Netapp c-mode & 7-mode / Pure / IBM Storage (DS, Vxxx, XIV)
- Linux/Puppet/Microsoft /AWS/VMware/System Administrative level certificates desirable

To Apply

Applicants must have New Zealand citizenship/permanent residency or a valid work permit.

Candidates may be required to complete a security clearance vetting process.

Send your application to Andy Clevett, Team Manager – aclevett@oss.co.nz
